NeckScape Infinity How-to and Other Ideas

There are many ways to wear your BabyEtte NeckScape. These are some of the more typical ways to wear your scarf, but feel free to experiment to come up with your favorite way to wear it!

Left Long

When you just want a splash of color but don't need the warmth. Just wear it like a long necklace with the seam behind your neck.

Looped Once

Simply loop the infinity scarf around your neck, keeping the seam out of sight behind your neck.

Looped Twice for Warmth

Keep your neck warm and draw the eye to your face by wearing your circle scarf looped twice around.

Mix it up!

Can't decide between long and short?
Go for both!

Cover those Ears

Need a little extra warmth on a windy day? Wear it as a hood! Start with your scarf hanging long, and give it a half-twist as you bring the bottom edge up over the top of your head.

Voila! Warm ears and no wind ravaged hairdo!
